Dan Wartenberg, PSY.D., MPH, Chief Clinical Officer  
Cynthia Wheeler, MBA, Director, Quality Improvement Services
Newport Mental Health’s Mission Statement

The Mission of Newport Mental Health is to improve the lives of children, adults, and families, living and working in Newport County, by providing the highest quality recovery-oriented, evidence-based and integrated mental health and substance use care.

Message from the President

Serving close to 2,000 children, families, and adults this past year, we continue to expand our services using the latest research-based care to promote recovery from emotional and substance use conditions. Because 4 out of 5 people with a behavioral health disorder in our community do not receive the help they need, it is important that we continue to expand our efforts beyond the four walls of our treatment centers and continue to strive to be there when people need help. To that end, this year we are continuing to expand our same day walk-in Assessment Center and now provide after-hours mobile clinicians evenings and weekends. Our 24 hour crisis line (846-1213) always provides a professional and caring person to be there while also providing a direct link to our Horizon Healthcare Partners BH Link 24 hour crisis center, a specialized behavioral health emergency service.

As suicide and overdose continue to be a leading but preventable cause of death, we acknowledge that more coordinated efforts need to be done. Spring 2019 Newport Student School Survey data continues to show that 61% of our Newport County students report feelings of sadness or hopelessness and 84% report involvement in electronic bullying.

While we continue to work with our educational community to improve outcomes, here are some positive outcomes:

• Newport Mental Health continues to be the state leader in getting clients back to paid employment as part of their recovery.
• Newport Mental Health is one of only six Certified Community Behavioral Health Clinics in New England designated by the federal government and receiving a grant to improve and expand services.
• Newport Mental Health is accredited by the Joint Commission, the gold standard for health care accreditation
• Newport Mental Health also plays a critical role in the community providing “Mental Health First Aid” training to staff at schools and community agencies, providing school-based clinicians at public schools, responding to crises in our community, providing staff to assist local police, and hosting public forums with other local leaders to discuss behavioral health issues.

Lastly, almost everyone (86%) has someone in their life with a diagnosable behavioral health condition that would benefit from treatment; Our treatment works but we need your continued support to reach the thousands of people right here in Newport County that are suffering with mental illness and substance use.

We at Newport Mental Health are dedicated and proud to be the “go to” place for children, parents, adults, teachers and others who have questions or need help with behavioral health.
Statement from the Chair, Board of Directors

Joyce A. Kirby, Esq.
Board Chair

Dear Friends,

On Behalf of the Board of Directors of Newport Mental Health, I want to thank our wonderful executive team, staff and clients for their work and dedication to the mission of Newport Mental Health this year. Most importantly, our thanks to the friends of Newport Mental Health for their support as we continue to try to provide the best possible behavioral health care to the members of our seven local communities.

The past year has continued to be a challenge as we strive to enhance and improve services with little state support and a Medicaid reimbursement rate for outpatient services that has not been adjusted in over twelve years. Thankfully, due to the diligence and creative thinking of our administrators and clinical staff I believe that Newport Mental Health continues its upward trajectory. We continue to dramatically increase our grant funding, particularly by being one of a few certified community behavioral health centers in New England. This designation carries not only substantial federal financial support but recognizes Newport Mental Health as being one of only a few centers that meet the stringent clinical and quality standards set forth in the program. The Board of Directors has also recognized the need to make philanthropy a bigger part of continuing the work of Newport Mental Health and has adopted a development plan to identify and approach potential supporters.

While obtaining grant support is crucial to our continued mission, in order to move forward in light of our low reimbursement rates, Newport Mental Health has also modified its care model. While Newport Mental Health cannot afford to be everything to everybody, we strive to provide the best services to the most people possible. Therefore, Newport Mental Health has shifted its focus to operating the initial access center for those in our area seeking assistance with behavioral health issues whenever they decide to seek help. Newport Mental Health focuses on quickly assessing each individual and working with each person to determine the best course for his or her journey to improved health and happiness. That may mean joining one of the Newport Mental Health programs or homes, or obtaining an assessment and referral to another provider in the area. In any case, Newport Mental Health is dedicated to helping each person on his or her best path to recovery.

The Board of Directors is proud of the creative solutions that Newport Mental Health has developed to continue to provide high quality services to our communities. We will continue to advocate for support from the state and federal government as well as seek additional grant funding and increased philanthropic support from our neighbors who can help. We ask that you, our friends and supporters, join us in this effort. A community of safer, happier, healthier citizens is certainly worthy of all of our best efforts.

Thank you and please feel free to reach out to me for any information on how to support the mission of NMH.

During the first year, Newport Mental Health implemented the following:

- Expansion of Assertive Community Treatment (ACT)
- Expansion of Individual Placement and Support (IPS) to serve additional adults with severe mental illness.
- Creation of a new evidence-based service of Multidimensional Family Therapy (MDFT) to serve children, youth and families with mental health and/or substance use issues.
- Translation services provided for our culturally diverse community along with active and ongoing recruitment of bilingual direct service staff.

In the 2019 calendar year, Newport Mental Health provided outreach to 591 individuals and screened 758 people for new services through CCBHC.

Formal agreement for referrals and care coordination are being developed with the Courts, Veterans Hospitals and veterans groups, primary care physicians, East Bay Community Action Program, Newport Hospital, Adcare, CODAC, schools, and various local police departments.
Year in Review

- Along with Horizon Healthcare Partners became certified as the first Community Behavioral Health Clinic in Rhode Island.
- Horizon Healthcare Partners expanded to include CODAC as a member agency.
- Introduced and expanded cutting edge evidence based practices:
  - Multi-Dimensional Family Therapy (MDFT)
  - Person Centered Recovery Planning
  - Collaborative documentation
  - Individualized Placement and Support Employment Services
  - School based therapy with a clinician embedded in Newport and Portsmouth Schools
  - Measurement Based Care (MIRAH)
  - Expanded our ACT and IHH services
- Developed and implemented an off-hours mobile crisis service where a Newport Mental Health clinician partners with the Jamestown, Newport, Middletown and Portsmouth police departments.
- Attained full re-accreditation by the Joint Commission.
- Increased access to services for all Newport County residents through implementation of 24/7 telephonic translation service.
- Continued Mental Health First Aid overview training to parents, teachers, principals, nurses, members of the Women’s Resource Center and Health Equity Zone.
- Awarded $280,000 in competitive grants from eight different private foundations, $580,000 from nine different state and local funding sources, and secured a $2 Million per year for two year grant from SAMSHA.
- Pivoted Newport Mental Health services to a model that is clinically responsive and financially sustainable:
  - Enhanced access to services provided by all Newport County providers
  - Enhanced brief treatment and rapid stabilization capability
  - Expanded connection to and utilization of community based outpatient services
"No Wrong Door"

An Improved Approach to Care:

When you, your child, loved one or just someone you know needs help with a mental health or substance use condition, where do you turn? Most of us don’t know and even for those of us in the behavioral health field, getting immediate help is not easy, especially when you are in a crisis. That is why Newport Mental Health has expanded its same day walk-in Access Center and after-hours crisis services.

There are many pathways to behavioral health recovery, but Newport Mental Health can’t be everything for everyone, which is why our new collaboration with community partners called “No Wrong Door” was born. No Wrong Door is a collaboration of agencies dedicated to working with Newport Mental Health to provide and deliver the highest quality recovery-oriented, mental health and substance use care available in Newport County.

No Wrong Door, as the name suggests, means that individuals will be helped and directed to the most appropriate, evidence-based mental health and substance use services in the county with Newport Mental Health as the first step. No Wrong Door enables anyone, regardless of income, to walk into our Assessment Center without an appointment and receive a comprehensive evaluation or immediate crisis support. No Wrong Door utilizes an inter-agency network of professionals, licensed social workers, and substance use specialists to connect people with the specific treatment that is best suited to their recovery.

With No Wrong Door in place, anyone can walk into a behavioral health agency and be greeted by a mental health professional ready to help. No Wrong Door improves community care through:

• An on-line, inter-agency universal screening tool
• A service matrix of provider specialties, referral protocols and training
• Inter-agency and multi-agency teams to meet basic and complex needs
• Sustainable infrastructure and funding

An Executive Community Council, consisting of community leaders continues to identify unmet community behavioral health needs, reduce duplication, and eliminate barriers to access.
Access and Referral Center: Walk-In Monday through Friday for comprehensive behavioral health assessment screening and/or crisis stabilization without the need for appointments and regardless of income. Depending upon need, a Resource Specialist will direct individuals to one of our community, team-based or clinical programs.

Multi-Dimensional Family Therapy (MDFT): Specialized licensed therapists help balance adolescents (9-17) lives by helping to eliminate substance or alcohol use and strengthen mental health and dynamics with families and other key relationships in home or community settings.

Co-occurring mental health and substance use teams: Integrated Health Home (IHH) and Assertive Community Treatment (ACT) Community Support Teams work with individuals with serious behavioral health disorders to lead meaningful and productive lives by connecting them to housing, employment and other supports along with local rehabilitation providers.

Emergency Mobile Crisis Services: After-Hours Mobile Crisis Clinicians work alongside local police and fire departments responding to emergency calls. The Mobile Crisis Clinicians provide triage, early interventions to help lower the risk of escalation and redirect the pattern of repeated emergency responses.

24-Hour Emergency Crisis Call Line: Licensed clinicians with the support of an on-call psychiatrist help stabilize people in behavioral health crises through the Newport Mental Health Crisis Call Line, (401) 846-1213.
Why We Need You

61-77%

Students, grades 6-12, report sadness or hopelessness lasting over 2 weeks in 2019 in Newport County.

1 in 4

Adults 61+ have been diagnosed with a mental health disorder at some point in their lives in Newport County.

Highest in RI

14% Newport County adults 61+ are reported to drink excessively.

Working with Youth

We have collaborated and created mental health awareness programs at the YMCA and Boys and Girls Club.

Working with Teachers & Parents

We have certified over 200 teachers & parents in Mental Health First Aid.

Working with Families

We work with families with evidence-based Multi-Dimensional Family Therapy.

Together We Can Make a Difference

Fundraising Events

On June 10, 2019 Newport Mental Health hosted its 5th Annual Golf Tournament at Wanumetonomy Golf & Country Club, raising close to $32,000 thanks to the support of corporate sponsors, businesses and community members. The event generates awareness of mental health services and treatment options provided to the greater Newport County community and raises funds for the programs and services provided to their clients and families.

We are extremely grateful to our two Presenting Golf Tournament Sponsors; BankNewport and Neighborhood Health Plan and the 28 teams and volunteers that made our event such a success.

Newport Mental Health’s 6th Annual Gala, held at OceanCliff Resort on October 10, 2019, drew over 225 guests, raising close to $90,000 in support of their mission to provide mental health and substance use treatment needs to adults, families and children. The Mansion’s ballroom was filled with corporate and communities supporters, friends, clients and therapists of NMH along with local and state mental health supporters.

The evening also included a special gift presentation from Representative Deborah Ruggiero(D-Middletown/Jamestown). A $5,000 donation from the Joyce Ioanes Mental Health Memorial Fund was made to Newport Mental Health’s CEO Jamie Lehane. Joyce Ioanes, who passed away in 2007, was a lawyer and advocate who defended the rights of those with mental illness.

An abundance of gratitude to OceanCliff Resort, Chef Peter Hand, Director of Catering Jim Maher, Jo’s American Bistro, Colleen Mederios, Event Chair, and Newport Mental Health’s dedicated Gala Committee for their time, talent and generosity.
